

How to guide for the Fill Line Jug

Our Hydration juices are supplied in cases of 12 x 0.5 litre cartons. Each 0.5 litre makes 10 litres of final product once mixed with water. Ambient storage of up to 12 months on unopened cartons. Open cartons have a 30 day refrigerated shelf life. When Fill line Jug is filled with juice it has a 3 day shelf life if refrigerated out of service times.

Use the 2.5 litre Fill Line Jug to mix the juice. Fill concentrate to 1+19 marker point.

Fill jug with water to the 2.5litre marker point.
