THE IMPORTANCE OF HAND HYGIENE

Helping you set new standards in the workplace.

Clinell products are trusted by hospitals throughout the UK, and used by 9 out of 10 hospitals. Clinell is also the No 1 supplier of disinfectant wipes to the NHS.

People are becoming more conscious about the germs around them. So, it's important that businesses address the changing social norms to accommodate a safer working environment.

By ensuring that we all regularly disinfect our hands we can help prevent the transmission of germs.

Industry-leading hand disinfection:

- ✓ **Unique** formulation proven to kill 99.99% of all known viruses. Fully Virucidal according to European standard EN14476
- ✓ **Hospital grade formula**, suitable for frequent hand disinfection
- ✓ **Added moisturisers** to leave skin healthy and protected without stickiness or residue
- ✓ **Enhanced** with cucumber fragrance leaving hands pleasantly fresh

clinell® TOUCH-FREE HAND DISINFECTION

The Clinell Touch-free Hand Disinfection dispenser is perfect for placement in a variety of high traffic locations.

Available as:
