

Rowlett

Milk frother Instruction manual

Model:
DE401

Safety Tips

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - BS EN Codes of Practice
 - Fire Precautions
 - IEE Wiring Regulations
 - Building Regulations
- Ensure the milk level is between the '**MIN**' and '**MAX**' marks.
- Keep hands and utensils away while use to reduce the risk of severe personal injury or damage to the appliance.
- Always ensure to use the appliance with cover in place.
- Only use the power base supplied with the appliance.
- Never use accessories which are not recommended by the manufacturer. They could pose a safety risk to the user and might damage the appliance. Only use original parts and accessories.
- NEVER operate an empty appliance to avoid any damage to the heating elements.
- Be cautious when moving the appliance with hot liquid inside.
- Always switch off and disconnect the power supply to the appliance when not in use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by a Rowlett agent or a recommended qualified technician in order to avoid a hazard.

- This appliance can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved.
- This appliance can be used by children aged from 8 years and above if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved.
- Cleaning and user maintenance shall not be made by children unless they are aged from 8 years and above and supervised.
- Keep the appliance and its cord out of reach of children aged less than 8 years.
- Children shall not play with the appliance.
- DO NOT immerse the appliance in water.
- This appliance is intended to be used in household and similar applications such as:
 - staff kitchen areas in shops, offices and other working environments;
 - farm houses;
 - by clients in hotels, motels and other residential type environments;
 - bed and breakfast type environments.
- Do not touch the hot surface. Hold the appliance by its handle only.
- Rowlett recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

- Rowlett recommend that this product is connected to a circuit protected by an appropriate RCD (Residual Current Device).

Introduction

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your Rowlett product.

The appliance is only intended for frothing and heating milk. Do not use it for anything other than intended use.

Pack Contents

The following is included:

- Milk frother
- Power base
- Instruction manual

Rowlett prides itself on quality and service, ensuring that at the time of packaging the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your Rowlett dealer immediately.

Before first time use

- Clean the appliance thoroughly (See section "Cleaning, Care & Maintenance").
- Get to know the paddles:

Mixing paddle		For mixing milk during heating
Frothing paddle		For frothing milk

- Get to know the milk level marks:

Maximum capacity for heating milk: 300ml

Minimum capacity for heating or frothing milk: 75ml

Maximum capacity for frothing milk: 150ml

Operation

Note for all functions:

Ensure to let the appliance rest for a Minimum of 3 minutes between two consecutive cycles, or the appliance will enter self-protection state automatically after working for 5 cycles continuously. The working indicator will flash and the motor will not run. After about 5 minutes, the appliance will enter standby and be ready for use again.

Frothing and heating function

- Remove the jar from the base.
- Open the cover. Then mount the frothing paddle onto the shaft inside the jar.
- Fill the jar with milk below the "MAX" mark (150ml). Then close the cover.
- Place the jar on the base then connect jar to a mains power supply.
- Press the heating button  once. The heating indicator light turns On and the appliance starts to work.
 - Note:** If desired, you can press the heating button  again to halt operation.
- Once completed, the appliance stops working automatically.

Frothing only function

1. Repeat the steps 1-4 as in section "frothing and heating function".
2. Press the frothing button . The frothing indicator light turns On and the appliance starts to work.
 - **Note:** If desired, you can press the frothing button  again to halt operation.
3. Once completed, the appliance stops working automatically.

Heating only function

1. Ensure to mount the mixing paddle onto the shaft.
2. Ensure the milk level is below the "MAX" mark (300ml).
3. After plugging in the base, press the heating button  once. The heating indicator light turns On and the appliance starts to work.
 - **Note:** If desired, you can press the heating button  again to halt operation.
4. Once completed, the appliance stops working automatically.

Cleaning, Care & Maintenance

Always disconnect the appliance from the power supply and let it cool down before cleaning and any maintenance.

- Use soapy water and a damp cloth to clean the exterior of the appliance.
- **The jar and cover are NOT dishwasher proof!** Use some mild detergent and a damp cloth to clean.
- Soak the 2 paddles in warm water, then clean with a soft cloth or brush.
- Dry thoroughly after cleaning.

Troubleshooting

Fault	Probable Cause	Solution
The unit is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug or lead is damaged	Call Rowlett agent or qualified technician
	Fuse in the plug has blown	Replace the plug fuse
	Power supply	Check power supply

Technical Specifications

Model	Voltage	Power	Current	Weight	Dimensions H x W x D mm
DE401	220-240V~, 50-60Hz	450-550W	3A	0.85kg	195 x 160 x 110

Electrical Wiring

This appliance is supplied with a 3 pin BS1363 plug and lead.

The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The WEEE logo on this product or its documentation indicates that the product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

Rowlett parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

Rowlett products have been approved to carry the following symbol:
